

IMPORTANT NOTICE TO SIMPLY ACCOUNTING BY SAGE CLIENTS

Simply Accounting by Sage **2008** for Basic, Premium and Enterprise versions.

Please note that Simply Accounting by Sage has released version 2008. We are currently in the process of testing this software and working out any issues.

There are new procedures for installing the software on a network as well as a peer-to-peer network environment. Thus we recommend that you **do not install** the 2008 version at this time.

We will send out a notice once we complete our testing and have worked out any potential issues.

However, if you should choose to install the software immediately, please call our office for assistance due to the network issues, and thus to avoid any problems.

Please contact Christina Goldstone, Jeanna Bennett or Jo-Anne Richardson at 264-9484 if you should have any questions.
