

Simply Accounting by Sage Product Enhancements

We recommend that you review your installation periodically to determine if any service packs are missing from your installation. To see the current version, select Help, About Simply Accounting. When installing Simply Accounting software it is very important to install the service packs in the order listed.

Hotfixes are also periodically produced to correct a specific problem within an application. Hotfixes should only be installed if they are recommended specifically for your installation.

Our Simply Accounting by Sage Certified Consultant can assist you with your installation and any questions you may have.
