New Information for Northern Ontario Residents

Northern Ontario Energy Credit

The 2010 Ontario Budget announced a new permanent Northern Ontario Energy Credit to recognize the higher energy costs in the north.

The refundable credit provides financial assistance to help low-to middle-income families and single people living in specified Northern communities.

Residents wishing to receive the 2010 installment will have to complete an application and submit it to the Ontario Ministry of Revenue no later than November 15, 2010. For subsequent years, the application will be part of the personal income tax return.
